# REPORT SCHOOL BOARD

For Year Ending February 15, 1914

---

The fiscal year under the management of the School Board of District affairs, ending February 15, necessitates a brief statement of facts.

Under the new apportionment the School District of Hooksett is required by law to raise for schools \$2,550, which is \$142.50 less than last year. This is according to State Superintendent H. C. Morrison, who further says: "In order to obtain state aid the tax for school purposes must be \$3.40 on a thousand dollars of equalized valuation, (See Session Laws of 1909, Chapter 158, Section 1, as amended by Chapter 182 Laws of 1913). To bring your tax to this amount your district must raise by taxation a total of \$5,534." Now in order to obtain this state aid the average absences must be greatly lessened in the daily attendance at the schools. Considering the heavy debt of the town, and the burden of taxation our taxpayers are staggering under, we cannot expect to raise the above amount this year, hopefully trusting the district will vote to appropriate a sufficient amount to maintain thirty-four weeks' schooling the coming year.

Our schools have been under the charge of the same teachers as last year, excepting in No. 5, Miss Isabel Holland of Manchester succeeding Elizabeth Wilson there the last half of the winter term, who relinquished her charge on account of ill health.

During the fall term alarming conditions existed in the health situation with the pupils attending the village schools, four or five being taken violently ill, supposedly of an epidemic, resulting from unsanitary conditions in the building. The school was closed one week. Jesse E. Cate, a bright, interesting, pupil, succumbed to a malady, which cast a gloom over the community. The board had the well water sent to the state chemist for analysis, otherwise investigated, and found nothing that indicated causes for the sickness, excepting unknown local and the climatic changes of the weather. Right here we call attention to the Medical Inspection Act, regarding medical inspection of schools, according to Chapter 83, Laws of 1913, which the district can adopt if thought advisable.

The enumeration of the school children, which took place in September, was performed by Albert W. Cole.

Total number . . . . .	335
Males . . . . .	166
Females . . . . .	169
Attending public schools . . . . .	213
Attending parochial schools . . . . .	90
Not attending, between ages of 5 and 8 . .	32

Clifton P. Sanborn acted as Truant Officer during the whole year.

Nine employment certificates have been issued by the Board the past year.

The following is an estimate of the amount of money that will be required to support the schools the coming year:

Teachers' salaries . . . . .	\$2,100
School supplies . . . . .	1,500

Repairs . . . . .	\$300
Tuition . . . . .	500
Fuel . . . . .	200
Transportation . . . . .	400
Officers . . . . .	125
Insurance . . . . .	130
Janitors . . . . .	60
Miscellaneous . . . . .	100
	<hr/>
	\$4,115

The School Board regrets exceedingly to be unable to have a complete itemized account printed in this report of the expenditures of the District, ending February 15, 1914. Suffice it to say that every order given which was paid prior to the above date is printed in this report and vouchers are held for the same. Two orders were given January 3, amounting to \$111.20, remaining unpaid February 27. Among all of the orders given February 16 were the salaries of the teachers up to February 13, amounting to \$478, the Treasurer paying the same from his private account on February 26. The Board are able to say that they have given orders for all known outstanding bills, including all enumerated in this report, amounting to \$1,059.84, and on February 28 there was no money in the treasury to pay the same. Besides this there will be due March 6 \$168, balance of teachers' salaries and transportation expense ending the winter term.

Being unable up to February 28th to have a final settlement of the financial affairs of the district, ending the fiscal year February 15, and submitting same to the auditors, owing to the brief interim afforded to place our report in the hands of the printer to be

published in season for the town meeting, we herewith respectfully subscribe,

SAMUEL HEAD,  
ALBERT W. COLE,  
CLIFTON P. SANBORN,  
*Board of Education.*

## Remarks

The library has had a successful year. We have been remembered, as usual, by kind friends. Mr. Charles P. Porter of Manchester has given two of the best magazines published, "The World's Work" and "The National Geographical Magazine," for the year 1913. Mrs. Lydia C. Patten, who always remembered us, has given "The Ladies' Home Journal" for the entire year. Miss F. Mabel Winchell, city librarian of Manchester, has given "The Concord City Directory" and "Merrimack County Directory."

During the past year, the library met with a great loss, in the passing on to the higher life of one of its trustees, Mr. George A. Robie. Mr. Robie had been trustee ever since the opening of the library in 1892. He was deeply interested in its work, as in every good movement which would in any way benefit the town. He was a man of superior judgment whose decisions were carefully and correctly made. Truly a good man has gone and his noble work will never be forgotten.

We take this opportunity to return our sincere thanks to all who have in any way helped in the good work of the library.

Respectfully submitted,

JENNIE B. ABBOTT,  
*Librarian.*

## Board of Health

---

The Board of Health has to report the prevalence of normal health conditions during the past year, except for the continuance of the epidemic of measles during the late winter and spring.

During the fall there was an outbreak of infantile paralysis, with two cases reported, and also one case of cerebro-spinal meningitis. These cases occurred in No. 6 school. The school was closed for one week and both rooms fumigated. The water from the well in No. 6 school was examined, and reported fit for drinking purposes. The presence of some surface drainage was found, and the Board of Health recommended that the top of the well be raised, firmly closed and made impervious to surface water.

The following contagious diseases were reported to the Board of Health and the premises fumigated: Tuberculosis, 2; Typhoid Fever, 3; Infantile Paralysis, 2; Cerebo-Spinal Meningitis, 1.
